GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

911 Outage Doyle, Lassen County

- On 01/26/16 at 1351 hours the California state Warning Center (CSWC) received a report from the CA 911 Branch advising of an outage in Doyle, Lassen County. As of 1809 hours, service has been restored to the community.
- Per the CA 911 Branch:
 - There were 676 access lines (wireline) that had no dial tone due to a C.O. shelf failure.
 - A Frontier technician was dispatched to replace and restore service.
 - Lassen County Sherriff has been notified of this outage.
 - Service has been restored.

Coastal Erosion, Pacifica, San Mateo County

- Pacifica, San Mateo County has experienced damage from the Winter Storms starting in in Dec 2015.
- Damage includes the Pacifica Pier, Milagra Watershed (possible Cal Trans impact), sea wall along Beach Blvd, and private properties on Esplanade Ave and Palmetto Ave, with evacuations along Esplanade Ave. Other areas along the cliff are experiencing significant loss of bluff top as well.
- Currently 26 residents, 7 dogs, and 6 cats from 20 units at 310 Esplanade Ave. have been evacuated. An unknown number of residents at 1112, 1115, and 1070 Palmetto have been evacuated also.
- The California Department of Social Services (CDSS) advises a shelter has been opened at the Pacifica Baptist Church, 2070 Francisco Blvd., Pacifica, 94044. Midnight Shelter Count – 5. The shelter capacity is 50.
- The Pacifica City Council ratified a local proclamation on 01/25/16. The initial proclamation was made on 01/22/16.
- San Mateo County OES and Cal OES staff have been meeting with City officials to coordinate needs and information.
- There are no requests for state resources. There is a request for the county to provide aerial reconnaissance and to provide pictures of impacted and potentially impacted areas.
- There are no EOC activations at this time.
- The Cal OES Coastal Region continues to monitor the situation and will provide updates as they are made available.

SITUATION SUMMARY

Weather of Concern

Northern California

- After several days of dry weather, portions of Northern California will return to a colder, wet pattern. Several bands of moderate to heavy precipitation can be expected between Thursday into Sunday and snow levels could lower towards the foothills on Saturday.
- Thursday morning will bring light rain along the Northern California coast, gradually spreading south and increasing in intensity through the day. Rain will become heavy late in the day through Friday morning, and several inches of rain can be expected across much of the area, particularly in Del Norte, Humboldt, and Trinity counties.

Southern California

- Cooler temperatures can be expected into this weekend as a low pressure trough deepens along the west coast, bringing a chance for wet weather and strong onshore winds Sunday.

River Forecasts

As of 1855 hours on 01/26/16:

- Sacramento River at Tisdale Weir is currently above monitor stage (Sutter County)

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

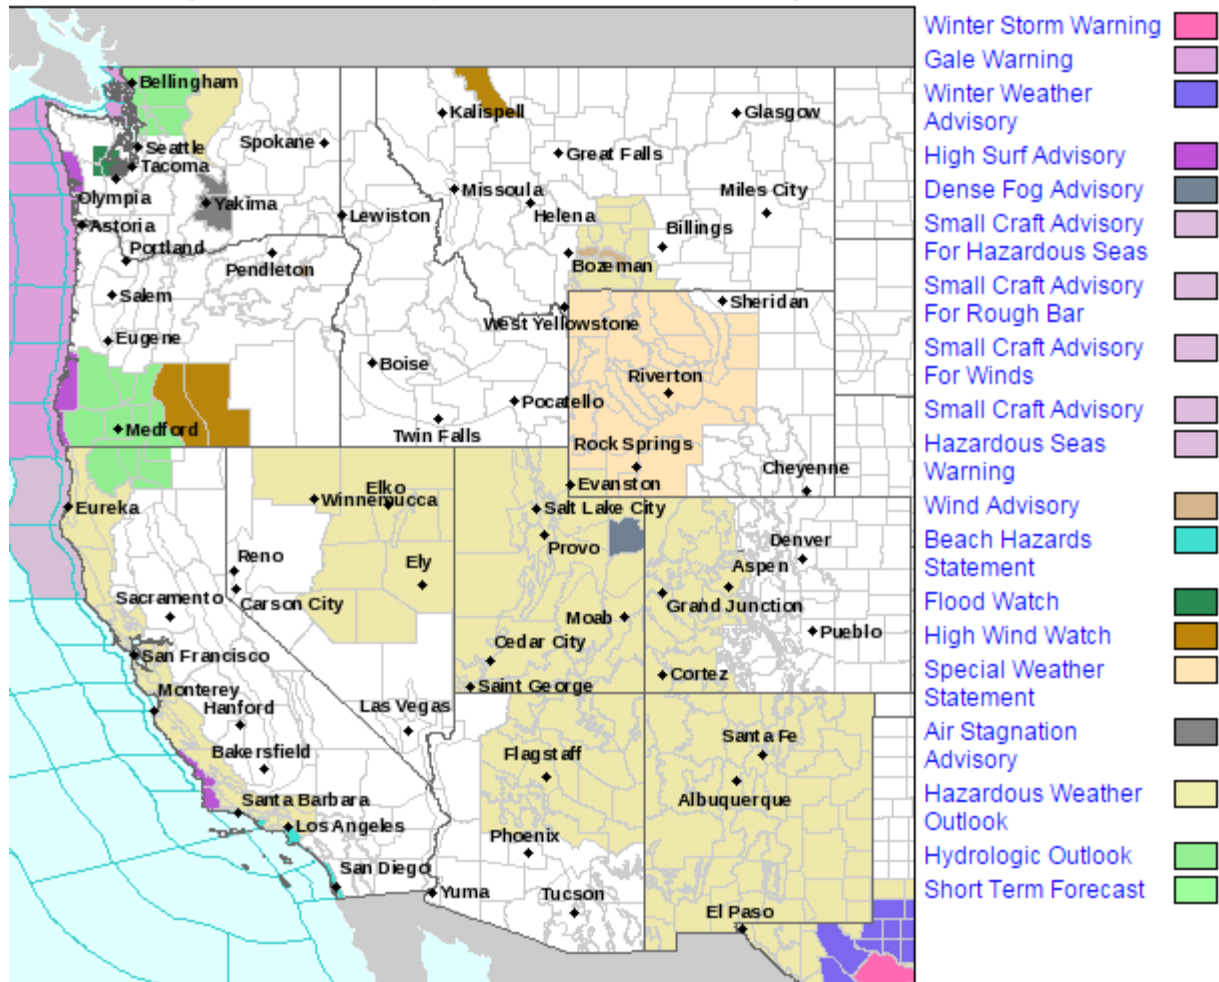

High pressure will be over portions of Northern California until midday Thursday. However, a weak frontal system moving through the Pacific Northwest will spread clouds into the northern and western portions of Northern California during this time. A few isolated light showers are possible in these areas as well. Snow levels will be 5000-6000 feet. By midday Thursday a strong Pacific frontal system will reach the north coast with moderate to heavy rain. The storm system will spread south and east over the area Thursday night and Friday. Snow levels will start out near 6000 feet and drop to 4000-5000 feet by early Saturday as colder air moves in. The final wave of precipitation will move through Northern California on Sunday, and snow levels will drop to 2000-3000 feet. A few showers will continue on Monday in the northwest flow pattern that develops over the area as the storm system moves into the Great Basin and the Rockies. Another Pacific storm system will move onshore Tuesday and Tuesday night.

SOUTHERN CALIFORNIA

North to east winds of 15 to 25 mph with gusts to 40 mph will continue across the mountains and below the canyons and passes of Southern California through this afternoon as a strong surface high remains over the Great Basin. A ridge of high pressure aloft over California will bring above normal temperatures to the region through Friday. Temperatures will warm a couple degrees each day through Thursday and then cool a few degrees Friday. Maximum temperatures will be in the mid 40s to mid 50s across the mountains and mid 60s to mid 70s in the valleys today. Minimum humidity will be mainly between 12% and 25% away from the Central Valley through Thursday and then humidity will increase especially across Central California Friday as the ridge weakens and a trough moves southward along the West Coast. Significant cooling will occur this weekend as the trough from the north moves across the area. Showers will occur from a Monterey/Fresno County line Friday afternoon through Saturday afternoon and then spread south covering the entire region by Sunday morning. Showers will end for the most part by early Monday morning, but isolated showers will continue over the mountains through the afternoon. At this time, it looks as though most foothill and mountain locations will receive between 2 and 4 inch of rainfall and most coastal and valley locations will receive between 1 and 2 inches of rainfall with this trough. South to west winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes this weekend.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

CAL OES MISSIONS

New Cal OES Missions

- **2016-LAW-21045, 1/225/16 1751 hours** - Monterey County Sheriffs Office (MCSO) requested a Human Remains Detection K9 (HRD K9) to search a specific location for a homicide victim. search is to be conducted on Tuesday January 26 starting at 0800 hours. A HRD K9 was secured for the mission. **Mission Ongoing.**

Closed Cal OES Missions

- **2016-LAW-21051, 1/25/16 2025 hours** - AFRCC advised of an initial PLB activation in Contra Costa County in the city of Richmond. Registered owner advised the device had been stolen in March of 2014. Several additional satellite pass overs failed to detect any additional signals. Per AFRCC the initial signal placed the device within a geographical area covering 10 residences. AFRCC closed the mission. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
